

2020

ANNUAL

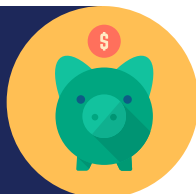

REPORT

Police Foundation of Colorado Springs is an independent, non-profit organization established by business and civic leaders to strengthen the services of the Colorado Springs Police Department and build effective partnerships that support the Colorado Springs Police Department and our local community.

The Foundation provides an important avenue for the private sector to come alongside the department and support its mission with resources not available from the city budget. As the major source of private support, the Foundation shares in the vision that our community is made safer and a better place to live thanks to the hard work, dedication and service of the Colorado Springs Police Department.
